ABOUT ME

Hi, I am Gursharan and a passionate Full Stack Web Developer. I specialize in MERN stack. I work hard and always try to learn something new. I am currently looking for the opportunities to work in the environment that will help me to learn new things.

WORK EXPERIENCE / PROJECTS

- **RealEstate Agency** (https://realestate.gursharansingh.ca/)
    - RealEstate Web App built using MERN Stack.
    - Used Google Map API to list items in map
    - Used Google Geolocation API to fill addresses
    - Used Styled components for css in js and creating dark/light theme
- **ProShop** (http://proshop.gursharansingh.ca/)
    - Ecommerce Web App built using MERN Stack.
    - Nginx and Docker to serve on AWS EC2 instance.
    - Using React with Redux as global state manager.
- **Shehr Vancouver** (https://shehrvancouver.netlify.app/)
    - Fun little web app for Shehr Vancouver Instagram page
    - Built using Gatsby (React)
    - AWS Lambda functions as backend service
    - MongoDB database to save the data.
- **Portfolio** (https://gursharansingh.ca/)
